

Building a value-driven, end-to-end pharmacy benefits model

A first-of-its-kind pharmacy model founded on medication cost transparency, a simplified member experience for pharmacy benefits, and access to more affordable medications.

A model designed to lower costs

No conflicts

No ownership of distribution and dispensing channels—we don't make more money when more drugs are prescribed

Low net-cost approach
to overall drug pricing

Member-focused
and evidence-based prescribing

Best-in-class vendors for dispensing options

Amazon Pharmacy

home delivery option begins on 1/1/2025

Retail network

still includes local pharmacies and national chains

Gemini Health

gives doctors real-time insight into member cost shares and coverage

CVS Specialty

remains our specialty drug provider

Simple, digital-first member experience for managing benefits

Redesigned member pharmacy hub, updated for a better experience, easier use, and cost transparency

- Price Check My Rx, which provides side-by-side drug comparisons that guide you to the lowest cost option
- Notifications will let opted-in members know when a lower cost drug option becomes available
- Enhanced spending tracker showing medical and pharmacy spend
- Redesigned pharmacy locator
