

Member digital enhancements for pharmacy benefits

Easy

Affordable

Transparent

Simpler navigation

- New pharmacy dashboard will offer streamlined access to essential member information.
- With one click, members can view their benefits, copay chart, and track both their medical and pharmacy costs and deductibles.

Pharmacy locator

- Members can quickly find nearby pharmacies that may be more convenient or offer a lower priced prescription option.
- The locator tool includes filters, like open 24 hours or drive-through, to narrow down searches.

Price comparison

- With our Price Check My Rx tool, members can compare costs and find the best deal on medications.
- Whether it's a lower cost alternative or better price at another pharmacy, it's easy to choose the most affordable prescription.

Low price drug alerts

- Members can opt-in to receive a push notification when there is a lower cost option available for their prescription.

Amazon Pharmacy

- Members can sign up to have their medications delivered at no charge through Amazon Pharmacy.
- Being an Amazon Prime member is not necessary to use Amazon Pharmacy or get prescriptions delivered at no cost. Delivery is faster for Prime members.
