How to access care

Virtual Blue is designed to offer you an affordable care solution – with integrated virtual primary care, specialty care, behavioral health care, coaching, and care coordination.

With Virtual Blue, you can **connect with a dedicated care team of doctors, specialists, and much more virtually**. Prefer hands-on care? Virtual Blue also gives you access to a **high-quality network of in-person healthcare providers**.

To learn more about Virtual Blue and to check if your plan provides access to either the Full or Tandem PPO network, please refer to your *Evidence of Coverage*.

Virtual care

Your virtual options – powered by Accolade Care – have a **\$0 copay** after meeting any applicable deductible. A virtual care team – made up of your primary doctor, a health coach, and a behavioral health care manager – will work together to develop personalized treatment plans based on your needs.

Log in to your member dashboard at blueshieldca.com/login or open your Blue Shield mobile app for access to:

Primary care

With Virtual Blue, your primary doctor (also known as a primary care physician or PCP) is your first point of care. Finding a good fit for you and building a relationship with them is key. You can select a virtual primary doctor and continue to see that same doctor for ongoing care. Options include pediatricians, OB/GYNs, and internal medicine and general practitioners.

Specialty care

Connect with specialists practicing in more than 20 specialties including dermatology, cardiology, endocrinology, urology, neurology, and orthopedics.

Behavioral health

Get virtual care from licensed clinical social workers, marriage and family therapists, psychiatrists, psychologists, and other mental health professionals. A behavioral health care manager can also assist you in locating the right provider for you, schedule appointments, and recommend programs and services.

24/7 doctor advice

Virtual Blue gives you 24/7 access to health care and advice via phone, video, or online chat, any time – day or night.

In-person care

Virtual Blue gives you **access to in-person care** through one of our PPO networks of participating providers without needing a referral. This includes doctors and specialists, hospitals, urgent care centers, alternative medicine practitioners, mental health providers, and more. Some may offer virtual consults and appointments, too.

All covered services must be received from a participating provider within your provider network except for emergency and urgent services. Please note that a cost share applies, based on your plan's benefits. See your *Evidence of Coverage* for details, including your plan network.

Care outside of California

While outside of California, you have access to in-person care through Blue High Performance NetworkSM (BlueHPNSM) providers. If you are not seeing a BlueHPN provider your plan covers emergency and urgent care. While outside of the United States, you may take advantage of Blue Shield Global[®] Core.
