

CalPERS Maintenance Drug List

for Access+ HMO, Trio HMO, and EPO plans

Selected maintenance medications

The medications on this list are commonly used for long-term, maintenance treatment of chronic conditions like high cholesterol, diabetes, or asthma. If you are taking any of these medications for a chronic condition, there are convenient options for you to save on your cost share by obtaining a 90-day supply of your prescription through mail order or at a nearby select retail pharmacy.

Some of these medications may require prior authorization. Please check the *Blue Shield Value Drug Formulary*, which is available as a PDF document. You can also search the online drug formulary by brand and generic names. You can access drug formulary information in the pharmacy benefits section at the CalPERS Blue Shield member page at blueshieldca.com/calpers.

If you need assistance, please call the Shield Concierge number on your Blue Shield member ID card.
