

Predictable out-of-pocket costs

Access+ HMO Plan[®]

With this plan, your primary care physician (PCP) coordinates all your care and refers you to specialists and hospitals within their medical group or Independent Practice Association (IPA). You may also be able to self-refer to specialists.

Plan Highlights

- No deductible; only fixed copayments for most covered services like doctor visits, urgent care, and emergency care
- A PCP must be selected for you and for each of your covered dependents from our broad HMO network. Each member of your family may choose a different physician and medical group/IPA, and you may change these selections throughout the plan year.
- Features The Away From Home Care program, which offers family members living outside California— students, workers on long-distance assignments, etc. – access to medical care in select states across the country. (Benefits vary by state.)
- Self-referral to specialists may be available to members of participating medical groups – no need to see your primary care physician first.
- Access to virtual health care with Teladoc's doctors and mental health professionals who can treat many medical and behavioral health issues.
- Coverage for urgent and emergency care anywhere in the world.
