

Centralize your specialty drug ordering process with the ASPN Prescriber Portal

ASPN Pharmacies: Your one-stop-shop for specialty drugs

Blue Shield of California and ASPN Pharmacies have teamed up to provide a convenient way for California providers participating in Blue Shield commercial PPO plans to order and receive medications for in-office drug administration as an alternative to the traditional “buy and bill” model where you purchase drugs first and bill Blue Shield later.

ASPN offers a one-stop-shop for drop ship specialty drug orders. Simply call, fax or e-prescribe your drop ship prescriptions to ASPN — they will take it from there. ASPN will save you time and effort by finding a specialty pharmacy that has access and stock to ship your medication order as quickly as possible, and will bill Blue Shield directly for the drug, simplifying your billing process.

The ASPN prescriber web portal at www.aspnpharmacies.com provides real-time status for all your orders. You can clarify orders and set preferred delivery dates to ensure timely delivery. ASPN’s customer service team is always available via chat should you need any help, or you can call ASPN directly.

Get started with drop ship today!

Phone: (888) 349-0884 Monday through Friday 5 a.m. to 7 p.m. (PST)
