| Important For Urgent Requests: Scheduling issues do not meet the definition of an urgent request. The definition of an urgent request is an imminent and serious threat to the health of the enrollee; including but not limited to, severe pain, potential loss of life, limb or major bodily function and a delay in decision-making might seriously jeopardize the life or health of the enrollee. If there is no MD signature present the request will be processed as a Standard request. |   |   |  |                              |  |  |  |  |
